

# HS2 ENABLING WORKS MEET THE CONTRACTOR DAY

09:00 - 17:30, WEDNESDAY 3 MAY 2017  
THE VOX, BIRMINGHAM

You are invited to register your interest to attend the HS2 Enabling Works Meet the Contractor Day and discover imminent enabling works supply chain opportunities which are being procured by three joint venture contractors. **Deadline to register interest is Tuesday 18 April 2017.**

Phase 1 construction will start in 2017 and there are hundreds of opportunities for suppliers specialising in the categories listed on page 2.

## JOINT VENTURE CONTRACTORS

Three joint venture contractors covering the north, central and south of the [HS2 Phase 1 route](#) from Euston to Birmingham will present their current and future opportunities, procurement routes, and be available to meet suppliers throughout the day.

Costain Skanska are old allies in the construction world having worked together for 30 years. In our Joint Venture we have delivered many major infrastructure projects including the M25 in the 1980's, High Speed 1 in the early 2000's, the current Crossrail endeavour and the A14 Improvement Scheme. We are culturally-aligned and have built sustainable relationships that work at every level. Through our history of working on numerous projects, we already know how to deliver for our clients in partnership.

Fusion connects the expertise, innovation and resources of three world-leading engineering businesses: Morgan Sindall, BAM and Ferrovial. Fusion designs, constructs and operates innovative engineering solutions for large, complex infrastructure programmes in the UK and across the world. Within the UK their track record of joint venture projects includes significant elements of Crossrail, Thames Tideway Tunnel, a host of enhancements to Heathrow Airport and some of the critical transport links for London 2012.

LM, a joint venture of Laing O'Rourke and J. Murphy & Sons Limited, has been appointed to deliver HS2 Enabling Works for the northern contract area. The LM team combines world-class experience in delivering major rail infrastructure projects, with an exceptional track record in engineering innovation, including off-site manufacturing, sustainability, employment, training and skills development.

## REGISTER YOUR INTEREST NOW

[CLICK HERE TO REGISTER YOUR INTEREST](#)

Please follow the link above to **register your interest by no later than Tuesday 18 April 2017**. This is an invitation only event and places will be confirmed week commencing 24 April. Meetings will be allocated on a strictly first come, first served basis.

# WHO SHOULD REGISTER THEIR INTEREST TO ATTEND?

Micro, small, medium and large companies looking to find out more about the types of work available and how to bid for contracts in the following categories:

**Accommodation/Welfare** Various opportunities.

**Asbestos** Surveys and removal

**Catering** Various opportunities.

**Consents Management** Environmental, planning and traffic consents with experience of working with local councils in London.

**Contestable Utilities** Design, procurement and construction of utility diversions, protections and removals, obtaining approvals and all consents/ permits.

**Demolition** Pre-demolition surveys and demolition of structures, residential and commercial buildings and ground remediation.

**Design** Civil design, structural, ecology mitigation works, ground remediation, highways, structures and watercourse diversions, utilities, architectural, services, highway and carriage design, habitat design.

**Ecological Mitigation** Various opportunities.

**Environmental Monitoring** Various opportunities.

**Fencing** Security fencing plus various fencing requirements.

**Groundworks** Services and utilities diversion, piling, excavation and trenching, temporary works, below ground drainage, reinforced concrete works.

**Highways including structures** Design and construction of carriageways, footpaths, realignments, roundabouts and structures, footbridges, temporary footbridges, road and rail bridges.

**Historic Buildings Surveys and Assessments**

**Specialist (HERDS)** Surveys Geophysics, UAV lidar, Photogrammetry, Metal detecting, Environmental sampling, Geo-arch deposit.

**Instrumentation and Monitoring** Monitoring of new, existing or third-party structures or assets, including post construction monitoring, I&M to support construction as it progresses, track and embankment monitoring, monitoring of listed buildings near works. Environmental monitoring including air, noise, groundwater and surface water quality.

**Invasive Species Mitigation** Various opportunities.

**Noise and Vibration ID** Ground movement/settlement studies and impact assessments of existing third-party buildings, structures and infrastructure resulting from

movements. Proactively manage construction related noise, vibration and air quality to cut emissions, meet sustainability targets and reduce the likelihood of causing disturbance to neighbouring communities

**Noise Insulation** Residential properties including listed buildings.

**Noise, Vibration, Air and Dust Mitigation** Noise and vibration baseline monitoring for noise from stationary systems. Implementing measurements and regular assessments of air quality.

**Planting / Landscaping** Various landscaping and planting requirements.

**Personal Protective Equipment** Various opportunities.

**Roadsweepers** Various opportunities.

**Security** Manned security solutions including CCTV systems. Suppliers required to have SiA, all staff vetted to BS7858, no SiA enforcements for 3 years, experience of working in two or more of following environments: large construction sites, corporate sites, government or public buildings.

**Structural Works** Temporary bridge structure requirements, small civil engineering packages, foundation design and piling.

**Surveys - General** Archaeology (incl. investigations), Pre-demolition, Ecological, Environmental, Engineering, Ground water monitoring, Pre-GI (ecology and archaeology), Invasive species.

**Temporary Roadways/ Haul Roads** Minor civils schemes, including temporary and permanent diversions and roadworks.

**Traffic Management** Design and implementation of traffic management schemes, including SMEs with experience of working with the London Authorities.

**Waste Contractors** Waste management solutions, Skips, Muck Away, Waste Management Planning, waste segregation and recycling, waste reporting.

**Watercourse/ Drainage works** Watercourse diversions and drainage works.

**Wayfinding** Variable message signs, general site signage, permanent signage for new highway and landscaping works.

**Wheel Washers** Construction site wheel washers.

# PROGRAMME

TIME	ACTIVITY
09:00 – 10:00	Registration and refreshments
10:00 – 10:05	Welcome Scott-James Eley, Supply Chain Manager, HS2
10:05 – 10:15	HS2 Early Works Beth West, Commercial Director, HS2
10:15 – 10:25	Supplier Communities Programme Mark Lomas, Head of Equality, Diversity & Inclusion, HS2
10:25 – 10:55	Joint Venture Contractor Presentations Costain Skanska, Fusion and LM
10:55 – 11:10	Q&A with HS2 and Joint Venture Contractors
11:10 – 14:00	Meet the contractor, networking and CompeteFor workshop Meet representatives from HS2, Joint Venture Contractors and stakeholders in the exhibition and networking area.  An introduction to CompeteFor (beginners) Every 30 minutes from 11:30 – 14:00
12:30 – 13:55	Lunch
14:00 – 14:05	Welcome Scott-James Eley, Supply Chain Manager, HS2
14:05 – 14:15	HS2 Early Works Beth West, Commercial Director, HS2
14:15 – 14:25	Supplier Communities Programme Mark Lomas, Head of Equality, Diversity & Inclusion, HS2
14:25 – 14:55	Joint Venture Contractor Presentations Costain Skanska, Fusion and LM
14:55 – 15:10	Q&A with HS2 and Joint Venture Contractors
15:10 – 17:30	Meet the contractor, networking and CompeteFor workshop Meet representatives from HS2, Joint Venture Contractors and stakeholders in the exhibition and networking area.  An introduction to CompeteFor (beginners) Every 30 minutes from 15:30 – 17:30
17:30	Event Close

NB: Programme subject to change. All registered delegates will be notified of any amends in the lead up to the event.

## OPPORTUNITIES IN:

- Accommodation/ Welfare
  - Catering
  - Consents Management
  - Contestable Utilities
  - Demolition
  - Design
  - Ecological Mitigation
  - Environmental Monitoring
  - Fencing
  - Groundworks
- Highways including structures
  - Historic Buildings Surveys and Assessments
  - Specialist (HERDS) Surveys
  - Instrumentation and Monitoring
  - Invasive Species Mitigation
  - Noise and Vibration ID
  - Noise, Vibration, Air and Dust Mitigation
  - Noise Insulation
  - Planting/ Landscaping
  - PPE
- Roadsweepers
  - Security
  - Structural Works
  - Surveys - General
  - Temporary Roadways/ Haul Roads
  - Traffic Management
  - Waste Contractors
  - Watercourse/ Drainage works
  - Wayfinding
  - Wheelwashers
